

NISHA'S SUCCESS STORY

"I want to support my family by securing a good job in future", says Nisha, a student benefitted from CSSAR. Her family migrated from their ancestral village to Delhi for a sustainable livelihood and started living at F-33, T C Camp, Raghbir Nagar Jhuggi. Her father, a tailor by profession, has to struggle everyday to earn a minimum amount to survive. She studies in Govt. Girls Senior Secondary School, Tagore Garden and has secured 60% of marks in her board exam of 10th class this year. On her early days to school, she was very irregular at attending classes and losing interest in studies. Then she was admitted to our Raghbir Nagar centre. There she finds a teacher Yogita to motivate her in every aspect of life apart from studies. Deeply influenced by her, Nisha aspires high to become a strong financial support for her family in later life. Her success outshines the adversities not only because of her supportive teacher and free remedial classes at CSSAR but also of her supportive family. Now she is attending computer coaching classes as well. While it is not easy leaving your comfort zone, moving to a new city and adapting to it, she has been able to do so successfully by engaging herself in studies, not being affected by things happening around her. On its part, CSSAR, through remedial classes helping her to adapt in a new city, assists her in studies plus providing an environment where she can also look beyond her books and uncover her interest in other activities like drawing and dancing too. On a thanking note to CSSAR, Nisha says, "no place better than those classes anywhere" and her eyes brighten with the dream for future.
