

EDUCATION PROGRAM

Currently we have the following education programs.

1. Remedial classes for school going children (primary level):

This program targets children studying in classes I to V in govt. schools. This program complements the gaps in school education. Due to this program students are regular in schools and are able to understand different subjects better.

2. Remedial classes for school going children (secondary level):

This program targets children studying in classes VI to X in govt. schools. This program complements the gaps in school education. Due to this program students are regular in schools and are able to understand different subjects better. This program is specially designed so as to reach out to the girls in the slums/villages who are generally side-lined or neglected in the education system due to various constraints. The main aim is to break this trend and empower and equip these girls with better opportunities so that they can strengthen their future.

3. Computer classes for school going children (primary level & secondary level):

This program targets children studying in classes I to X in govt. schools. The children are taught basic computer sessions. School curriculums are followed at the classes to make the children understand them.
