

SREE JNANODAYA GRAMEENA VIDYA TRUST (SJGVT)

ANNUAL REPORT 2018-19

No.06, Sri Sai Dhama,
Divine City,M.G.Road
Ganganamidde ward
Chikballapur-562 101
KARNATAKA
INDIA

Vision, Mission and Values

VISION

Social, Economic and Environmental fairness for all

MISSION

Support stakeholders through participatory actions that promote social well-being and social transformation

Enable communities to envision their needs and facilitate capacities, skills and action for change

Enhance convergence for sustainable interventions to conserve, protect, and manage natural resources

Kindle, pilot and share new concepts and approaches through meaningful partnerships that bring out innovative ways of achieving sustainable development

CORE VALUES

- **Participation**
- **Integrity**
- **Professionalism**
- **Equality**
- **Transparency**

1.0. About Jnanodaya

Sree Jnanodaya Grameena Vidya Trust (Jnanodaya) is a grassroots non-profit organization based in Chickballapur district, southern Karnataka, India dedicated to participatory actions and partnerships that promote social, economic, and environmental equity for communities. Since inception in 1993 Jnanodaya has strived to pursue its vision through a holistic and participatory approach. It firmly believes that for any development, participation of stakeholders is a crucial foundation on which sound values, purpose and action can be built upon.

2.0. Foundation of Work

The organisation places emphasis on working in drought prone and resource poor areas, where it is imminent to address the complex and interwoven fabric of social, economic and environmental concerns in an inclusive manner. Hence, the organisation works along with communities to plan and implement development projects which they perceive are important and where there is a need to make a difference. In addition, the organisation considers that innovative approaches, new concepts and learning from experiences are significant inputs to evolve and grow. Hence the Jnanodaya also takes up **piloting new concepts, research, monitoring, evaluation, learning and documentation projects**. To achieve its vision, the organisation primarily **works with marginalised farmers, women, community based organisations, functionaries of local governments (Gram Panchayats), state government, private foundations and like-minded organisations**.

3.0. Focus of Work

The organization works across various sectors of development, but mostly addresses the focus areas:

Social	Economic	Environment
 <ul style="list-style-type: none">• Empowerment of Women• Rural infrastructure• Environment Education• Water and Sanitation• Local Governance• Participatory studies• Participatory Training• Education• Preventive Health and RCH• Nutrition• Sanitation	 <ul style="list-style-type: none">• Thrift and Credit• Livelihoods• Skill building• Rural Employment• Entrepreneurship development• Coverage	 <ul style="list-style-type: none">• Integrated Natural Resource Management• Rural Renewable Energy• Joint Forest Management• Common Lands (Use and Management)• Research Studies, evaluation and Thematic studies

A Journey so far

Social

1. Impacted 1.5 Lakh population
2. Organisational capacities enhanced in 53 Gram Panchayats in Kolar, Chickballapur and Tumkur districts of Karnataka.
3. Considerable improvement in drinking water supply, sanitation, street light, education, health, Nutrition, Resource leveraging, Livelihoods and skill building in 450 villages across 41 Gram Panchayaths in Karnataka
4. Handholding support to improve Quality of education, Early child education, RCH, women empowerment and skill training for women to Ford-Amzon project in Bangalore Rural district
5. Students experiential learning - soils, rural crafts, agriculture operations and cultures for 80 students of Saandeepani Academy, Bangalore
6. Strengthened 121 standing committees of Gram Panchayaths
7. Strengthened 181 sub committees like Village Water and Sanitation committees, Schools Development and Monitoring committees, Bio diversity committees and Food security committees in Gram Panchayaths
8. Gram Panchayath Development Plans prepared for 8 GPs of Bangalore rural districts.
9. Handholding support to 360 SHGs in the 9 sub watersheds
10. Trained 2450 SHG members/women of 168 SHGs on Grama Sabha in Siddlaghatta Taluk, Chickballapur district
11. Support to 10 Gram Panchayaths in Organizational Development with FES in Siddlaghatta Taluk, Chickballapur district
12. Kala Jatha conducted in the Town Municipality area of Gudibande on Sanitation
13. Provided financial support to 6 students to pay school fee and purchase books

Economic

1. Skill building for 900 rural women entrepreneurs in Koppal and Gadag districts of Karnataka
2. Promoted 600 entrepreneurs in Koppal and Gadag districts of Karnataka
3. Mobilised Rs. 30 lakhs bank loan support for SHG members/entrepreneurs
4. Job placement for 131 youths in Kolar district, Karnataka with the support of Mandmus
5. Promoted small enterprises like provisions stores, sheep rearing, tailoring and poultry for 1200 House holds in Chamaraj nagar, Vijayapura, Kalaburgi, Yadagiri, Koppal, Gadag, Davanagere, Bidar, Chickballapur, Kolar and Tumkur in Karnataka
6. Team Jnanodaya provided field assistance to conduct Heritage study in Banashankari, Pattadakalu, Badami, Ilkal and Banavasi to develop DPRs for economic development of the local entrepreneurs

Environmental

1. MELD for 69 sub watershed in IWMP watershed as field facilitation organisation with TERI, Bangalore
2. Promoted solar lighting for 600 households
3. Conducted energy survey in 42 households for LPG
4. Facilitated construction of 2,800 toilets
5. More than 6000 toilets made to use, a move towards ODF
6. MELD in 9 Sub watershed (Tumkur, Davanagere, Chamarajanagar, Bijapur, Kalburgi, Bidar, Yadagiri, Koppal and Gadag in Sujala -03 project as field facilitation organization with TERI, Bangalore
7. IEC in solar pumps project along with SEI Tejas Pvt Ltd for Surya Raitha project in Kanakapura Taluk, Bangalore Rural district
8. IWMP-03 watershed evaluation in 9 Sub watershed, JDA, Chickballapur
9. Assisted 100 Gram Panchayats to plan for Soil and water conservation activities under NREGA
10. 4 Borewell recharges in Mulbagal, Kundalgerki, Sonnaganahalli of Chickballapur district with the support of Udhavam, Pune

4.0. ACTIVITIES 2018-19

4.1. Gram Panchayath Organization Development (GPOD):

Project Title:	Working with Gram Panchayaths (GPs) towards implementation of Annual plans and enhance citizen participation
Project Location	MulbagiluTaluk, Kolar district

Jnanodaya and Anode Governance Lab, Bangalore together aimed at supporting the Gram Panchayaths (GPs), on the **fee for service**. Congruently, Jnanodaya had signed MoU with 11 GPs in Mulbagilu Taluk, Kolar district for 7 months, i.e. November 2017 to May 2018 to work on the succeeding GPOD **step VI**: Handholding implementation of plans and **Step VII**: Strengthening citizen engagement.

The project has been implemented in two phases between Jan and May 2017 and November 2017 to May 2018. This report covers the details of the project activities and deliverables **agreed in the MoU between GPs and Jnanodaya for phase II**:

Step VI: Handholding implementation of plans:

1. Working with Portfolio heads to enhance capabilities and implement their Perspective/Annual plans
2. Leverage additional resources up to Rs. 5.00 lakhs
3. Increase 10% revenue in the GPs against its Demand, Collection and Balance statement
4. Support GP in preparation for the social Audit

Step VII: Strengthening citizen engagement

1. Strengthen Ward Sabha, Gram Sabhas, standing committee and 10 sub committees

I. Details of GPs signed MoU with Jnanodaya:

The following GP have directly signed MoUs with Jnanodaya for rendering OD services on a fee for service basis i.e. each GP pay Rs.2,000.00 per month as service fee to Jnanodaya:

SI No	Name of the GP	SI No	Name of the GP
1	H.Gollahalli	7	Hebbani
2	Devarayasamudram	8	Mustoor
3	Avani	9	Kapplamodagu
4	Sonnavadi	10	Bairakuru
5	Kurudamalle	11	Gudipalli
6	Rajendrahalli		

II. Activity wise progress

Step VI: Handholding in implementation of the planned activities:

1. Working with Portfolio heads to enhance capabilities and implement their Perspective/Annual plans

GP wise details:

Sl No	Name of the GP	Port folio	What has been the result?
1	H.Gollahalli	Drinking Water	Repairs of pipe lines/ taps within 24 hours Equal water distributions in 2 villages 10% Reduction in water wastage during supply Rolled out Quaterly Water men meeting to resolve water supply and Quality issues Display of water testing report on the GP notice board
		Sanitation	GP members took responsibilities of construction of 28 toilets 2 Campaigns conducted on Usage of toilets Portfolio Head tracking Final payments for the construction of toilets. 2500 RMT Drainage cleaning
		Housing	Portfolio Heads monitoring the Quality of houses construction Listing out village wise potential beneficiaries and placing it for the discussions in the ward and Grama Sabha
		Resource mobilisation	Increased Tax collection Other sources from TP, ZP members (please refer below tables)
2	Devaraya samudram	Drinking Water	Equal water distributions in 3 villages Rolled out Quaterly Water men meeting to resolve water supply and Quality issues Portfolio Head visted 7 villages to observe water supply Display of water testing report on the GP notice board Repairs of pipe lines/ taps within 24 hours
		Housing	Portfolio Heads monitoring the Quality of houses construction Leverged 15 more houses with the support of MLA Listing out village wise potential beneficiaries and placing it for the discussions in the ward and Grama Sabha
		Sanitation	Construction of 25 pending toilets 4560 RMT Drainage cleaning Monitored construction of 82 toilets by the GP members
		Resource mobilisation	Increased Tax collection (please refer below tables)
3	Avani	Drinking Water	Repairs of pipe lines/ taps within 24 hours Equal water distributions in 2 villages 8 % Reduction in water wastage during supply Rolled out Quaterly Water men meeting to resolve water supply and Quality issues Display of water testing report on the GP notice board
		Sanitation	Conducted 3 Awareness campign on Toilet use and drainage cleaning

			Portfolio Head tracking Final payments for the construction of toilets. GP members took responsibilities of construction of 42 toilets
		Nutrition	Portfolio Head Visits to 8 Anganawadi schools to understand problems of Anganawadi and collected feedback on the supply of supplements to the children, lactating mothers and pregnant women.
		Resource mobilisation	Increased Tax collection Other sources from TP, ZP members (please refer below tables)
4	Sonnavadi	Drinking Water	Repairs of pipe lines/ taps within 24 hours 8 % Reduction in water wastage during supply Rolled out Quaterly Water men meeting to resolve water supply and Quality issues Display of water testing report on the GP notice board
		Housing	Portfolio Heads monitoring the Quality of houses construction Listing out village wise potential beneficiaries and placing it for the discussions in the ward and Grama Sabha
		Sanitation	Portfolio Head tracking Final payments for the construction of toilets.
		Resource Mobilisation	Increased Tax collection (please refer below tables)
5	Kurudamalle	Drinking Water	Repairs of pipe lines/ taps within 24 hours
		Education	Portfolio Head visited 7 School in the GP to understand SDMC functions and initiated discussion in the General meeting Created awareness on RTE in the Ward and Gram Sabhas
		Sanitation	Cleaned 1800 Rmt drains. Constructed Toilet in the high school
		Resource Mobilisation.	Increased Tax collection (please refer below tables)
6	Bairakur	Housing	Data update on house construction Wrote letter to TP/ZP to increase housing quota for General category
		Sanitation	Construction of 15 pending toilets Portfolio Head tracking Final payments for the construction of toilets. Conducted Survey on the toilet use in 4 villages Cleaned 800 Rmt drains.
		Resource mobilisation	Conducted meeting of Bill collector and 3 campaigns to increase tax collections (please refer below tables)
		Drinking water	Provided drinking water connection to 2 schools Equal distribution of water 2 villages Display of water quality test reports on the GP notice board
7	Gudipalli	Housing	Monitoring the construction of 8 long Pending houses. Listing out 26 leftover potential beneficiaries for housing
		Street light	Repairs of stree lights within 8 hours Bulk procurement of LED bulbs Numbering of all Street light poles

		Resource Mobilisation	Conducted monthly Bill collector and watermen meetings to discuss strategies for increasing water tariff collections. Increased village visits of portfolio head
		Drinking water	Improved water supply in 3 villages 15 % Reduction in water wastage during supply
		Greening the village	Preparation of Annul plan for tree plantation and implementation
8	Hebbani	Housing	Review of Housing annual plan Preparation of beneficiaries list and sent to TPs
		Sanitation	Portfolio Head tracking Final payments for the construction of toilets. Conducted Survey on the toilet use in 4 villages Cleaned 1875 Rmt drains.
		Drinking water	8 % Reduction in water wastage during supply 180 mtrs New pipelines made for equal distribution of water Display of water quality test reports on the GP notice board
		Resource mobilisation	1 campaign to increase tax collections Conducted monthly Bill collector and watermen meetings to discuss strategies for increasing water tariff collections. Preparation of an action plan for increasing Tax collections (please refer below tables)
9	Koppala modaggu	Sanitation	Construction of 27 pending toilets Portfolio Head tracking Final payments for the construction of toilets. Cleaned 780 Rmt drains.
		Resource Mobilisation	Conducted monthly Bill collector and watermen meetings to discuss strategies for increasing water tariff collections. Increased village visits of portfolio head
		Drinking water	6 % Reduction in water wastage during supply 120 mtrs New pipelines made for equal distribution of water Display of water quality test reports on the GP notice board
		Greening the village	Preparation of Annul plan for tree plantation and implementation
		Nutrition	Portfolio Head Visits to 4 Anganawadi schools to understand problems of Anganawadi and collected feedback on the supply of supplements to the children, lactating mothers and pregnant women.
10	Mustoor	Drinking water	8 % Reduction in water wastage during supply Rolled out Quaterly Water men meeting to resolve water supply and Quality issues Display of water testing report on the GP notice board
		Sanitation	Conducted1 Awareness campaign on Toilet use and drainage cleaning Portfolio Head tracking Final payments for the construction of toilets. GP members took responsibilities of construction of 18 toilets
		Housing	Review of Housing annual plan Preparation of beneficiaries list and sent to TPs
		Greening	Preparation of Annul plan for tree plantation and

			implementation
		Resource Mobilisation	Conducted monthly Bill collector and watermen meetings to discuss strategies for increasing water tariff collections. Increased village visits of portfolio head
11	Rajendrahalli	Drinking water	6 % Reduction in water wastage during supply 60 mtrs New pipelines made for equal distribution of water
		Street light	Replaced 48 LED bulbs 18 DP switches fixed to control power supply
		Sanitation	Portfolio Head tracking Final payments for the construction of toilets. Cleaned 450 Rmt drains.
		Resource mobilisation	Conducted monthly Bill collector and watermen meetings to discuss strategies for increasing water tariff collections. Increased village visits of portfolio head

Display of water test report in the GP

Repair works to control water wastage

ii. Leveraging additional resources up to Rs.5.00 lakhs:

GPs have leveraged/mobilised resources for the implementation of Drinking water, Sanitation, Housing, Street lights maintenance, Education and Nutrition activities based on its annual plans, the details are as follows:

Sl No	Name of the GP	Details	Amount	Total INR in lakhs
1	H.Gollahalli	1 New Bore well in Nagasandra by ZP & RDWD	12,00,000	12,00,000
2	Devarayasamudram	Pump ,Motor and pipeline repair from RDWD	8,00,000	8,00,000
3	Avani	RO water plant in Ramasandra and Kemapura from RDWD	25,00,000	67,00,000
		New drains from ZP in Cholanagunte	2,00,000	
		Overhead tank from ZP in Ramasandra	12,00,000	
		Revetment of tank Bund from Zp in Avani	2,00,000	
		CC Road construction from ZP & TP in Ramasandra and cholangunte	15,00,000	
4	Sonnaivadi	RO plants in Manchiganahalli, Sangondahalli and Gumalapura from RDWD	37,50,000	37,65,000
		General Health check up camp from Health department	15,000	
5	Kurudamalle	Animal Health camp in 9 villages of Panchyat form veterinary department.	20,000	20,20,000
		Drainage construction form ZP lingapura and Kadripura	17,00,000	
		Toilet construction to High School in kurudumale from TP	1,00,000	
6	Bairakuru	CC Road and Drainage in byrakur from TP	5,00,000	67,60,000
		School compound from ZP in Byrakur	2,00,000	
		RO Water plant from ZP in Hirenyagowdanahalli.	5,00,000	
		ICDS centre in Thondahalli and Kurubrahalli from land Army	10,00,000	
		RO water plant from RDWD in poujenhalli	8,00,000	
		Over head tank in pujenhalli from MLA lad	13.60.000	
		RO Water plan in Pedndalahalli from KMF	8,00,000	
		RO water plant in Lakdoddi from VSSN	8,00,000	
		RO Water plant in Kadenhalli from MLA lad	8,00,000	
7	Gudipalli	School compound from ZP in Gudipalli	2,00,000	17,00,000
		ICDS centre in Holagerenahalli form ZP & ICDS	8,00,000	
		Temple compound in Gudipalli from ZP	3,00,000	
		Compound wall and CC Road near temple from ZP	4,00,000	
8	Hebbani	ICDS centre from ZP in kotur village	8,00,000	44,00,000

		Tollgate from ZP in Kotur village	10,00,000	
		2 ICDS centre in Hebbani from ZP	16,00,000	
		RO water plant in Bangawadi from ZP	5,00,000	
		School compound from ZP in Habbani and Sunpagunte	5,00,000	
9	Koppalamodaggu	CC Road from ZP in Kapplamadgu	5,00,000	15,00,000
		RO water plant from ZP in Padmagatta	5,00,000	
		Street lights and poles from ZP in 10 villages	5,00,000	
10	Mustoor	CC Road from MLA lad in Nagawara	10,00,000	28,00,000
		New bore well Digging from MLA lad in peddur & Upperhalli	10,00,000	
		ICDS centre from ZP in peddur	8,00,000	
11	RajendraHalli	Solar lights in 9 villages from MLA	10,00,000	49,00,000
		RO water plant in Rajendrahalli from ZP	15,00,000	
		Ro water plant in Gaddur, Kirumani and Nagenhalli form MLA lad	24,00,000	
		Total		3,56,45,000

iii.Support GP in preparation for social Audit: Jnanodaya team provided following support in the Social Audit

Social audit related activities	H.Gollahalli	Devaraya samudram	Avani		Sonnavadi	Kurudamalle
Supporting documents verification beneficiary file	Yes	yes	Yes		yes	yes
Participate in social audit Report presentation Gramasabha	Yes	Yes	Yes		Yes	Yes
Social audit related activities	Bairakuru	Gudipalli	Hebbani	Koppala Modaggu	Mustoor	RajendraHalli
Supporting documents verification beneficiary file	yes	Yes	Yes	Yes	Yes	Yes
Participate in social audit Report presentation Gramasabha	yes	Yes	Yes	Yes	Yes	Yes

Preparation for Annual and Social audits in the GPs

Step VII: Strengthening citizen engagement

1. Strengthen Ward Sabha, Gram Sabhas, standing committee and 10 sub committees

Our team has helped GPs in conducting ward sabhas, Gram Sabhas, standing committees rejuvenation as per the 2015 KPR and Identified active sub committees as per the 61 A section of KPR.

The following are the details of ward sabha, Gram Sabhas, standing committee and sub committees

v.GP`s General meeting and standing committee meetings:

Jnanodaya team facilitated following meeting in the GPs

Sl No	Name of the GP	Ward sabha	Gram Sabhas	Standing committee	Sub committees
1	H.Gollahalli	4	1	6	4
2	Devaraya samudram	1	1	6	6
3	Avani	4	1	6	6
4	Sonnavadi	1	1	6	6
5	Kurudamalle	1	1	6	8
6	Bairakuru	11	1	6	8
7	Gudipalli	2	1	6	6
8	Hebbani	1	1	6	8
9	Koppala modaggu	1	1	6	8
10	Mustoor	1	1	6	8
11	RajendraHalli	2	1	6	5
	Total	28	11	66	73

vi. Fee for service:

During this year, Jnanodaya has received **Rs. 0.60 lakhs** and cumulatively received **Rs.2.71 Lakhs** as Service charges directly from 11 Gram Panchyath.

4.2. MELD Field facilitation of SUJALA-03: (April 2018 to March 2019)

M/s. The Energy and Resources Institute (TERI), Southern Regional Centre, Bangalore. has entered into a new contract agreement with Watershed Development Department (WDD), Government of Karnataka, Bangalore for the project "Monitoring, Evaluation, Learning and Documentation (MELD) for Karnataka Watershed Development Project - II (KWDP – 2/ Sujala – 3)". The project area comprises of 9 sub watersheds covering an area of 46640.8 ha spread across districts in Karnataka, i.e. Chamarajanagar, Tumkur, Koppal, Bidar, Gadag, Kalaburgi, Yadagiri, Vijayapura, and Davanagere. The project implementing agencies are Watershed Development Department (WDD) and Department of Horticulture (DoH) with technical inputs and support from approximately 12 partner agencies. While TERI is responsible for MELD of KWDP - II, TERI is desirous to take the assistance and services of **Sree Jananodaya Grameena Vidya Trust**. The scope of the work includes:

- 1) Deputation of 9 staff as per project requirement
- 2) Regular facilitation, field coordination, guidance to field staff
- 3) Collate monthly watershed visit plan by staff
- 4) Facilitate and provide inputs (information, data collection, photos etc.) for reporting as per requirements of the project
- 5) Review all reports and documents submitted by field staff
- 6) Assist in timely delivery of all outputs of the project
- 7) Participate in review meetings as and when required
- 8) Organise and coordinate field visits for TERI staff / other officers visit as and when required
- 9) Inputs for Baseline report
- 10) Implementation monitoring of MIS on monthly basis – to be submitted by 5th of every month
- 11) Process monitoring on monthly basis – to be submitted by 5th of every month
- 12) Participatory community monitoring on monthly basis – to be submitted by 5th of every month
- 13) Identifying, Meeting and data collection from beneficiaries and other stakeholders on monthly basis
- 14) Checking progress (physical and financial) as per pert chart on monthly basis
- 15) Field photos with GPS on monthly basis
- 16) Data collection for thematic study - 5 times during the project as decided by WDD
- 17) Identifying cases for cases study - 5 times during the project as decided by WDD

- 18) Social audit once in 6 months
- 19) Data collection for impact evaluation - once at the end of project
- 20) Field support for video documentation - 3 times during project as decided by WDD
- 21) Observing and documenting good practices and learnings - twice during project as decided by WDD
- 22) Field support for any other activities as directed/ required by WDD.

9 staff from Jnanoday were involved in this project for monthly monitoring and documentation on the quality components concerning to people's institutions viz., Watershed Committees, User Groups, Executive Committees and Self Help Groups, Capacity Building activities, watershed awareness programs, skill building and Income Generation Activities of the Sub Watersheds. Participatory monitoring, Technical monitoring and process monitoring has been carried out in 9 Sub watershed between April 2018 and March 2019.

4.3. Bore well recharge:

Urdhavam, Pune and Jnanodaya jointly ventured for Bore well charging, a new technology to charge the dried borewells. 4 Borewells in Thimravathanahalli GP in Mulbagal Taluk, Kolar district, Kundalgurki and Sadli GP, Chickballapur district with the contribution of farmers and Gram Panchayath was done.

4.4. Heritage study:

Jnanodaya team members (Rajendra Prasad, Ganesh and Thimmaraju) were engaged as Field Consultants in the Integrated heritage based economic development in Karnataka which is being undertaken by National Institute of Urban Affairs (NIUA) as part of the World Bank (WB) - Cities Alliance (CA) - Technical Assistance (TA). Technical Assistance for Inclusive revitalisation of historic Cities in India, aims at supporting the Government of Karnataka in integrated heritage based urban revitalisation through strategic planning. The overarching approach of the TA is to support the Government of Karnataka in achieving economic development through the enhancement of its capacities and methodologies for planning, coordination, outreach and implementation of related investments, in its historic areas, cities and regions. Bijapur—Badami —Aihole— Pattadkkal, is the pilot region for the proposed strategy. It is part of the heritage circuit of Chalukyan dynasty in North Karnataka, India.

The details of some of the major planning activities undertaken for this region, and key issues are as below:

- The tourism department has various destination improvement projects in the region. As part of their planned (2017-18) projects, the department has plans for development of Tourism Master Plans for twelve destinations including Bijapur, Badami, Aihole, Pattadakal and

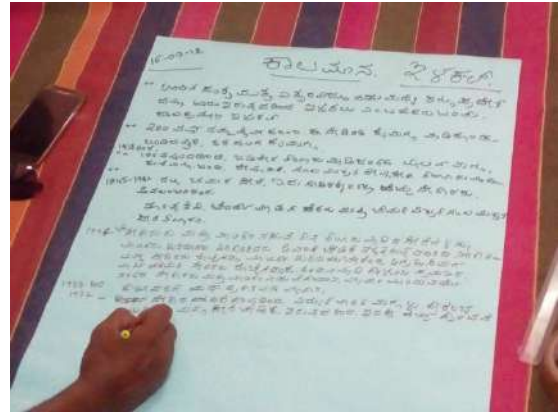

Detailed Project Reports for various projects at these destinations.

- Archaeological Survey of India (ASI) and the State Archaeology Department have mapped and listed various heritage assets. Earlier, the ASI also had plans to rehabilitate the settlements at Aihole and Pattadakal as part of Heritage management planning for the buffer zone around the historic sites.

- The district administration of Bijapur and Bagalkote has plans to take up small-scale infrastructure upgradation projects at these locations.

- Badami is a one of the town in this region, covered

under HRIDAY. Heritage Management Plan (HMP) and few projects are under implementation at Badami as part of HRIDAY. However, there is a lot more work that remains in order to install sustainable heritage management processes in Badami.

- In terms of tourism in the region, the tourist flow reduces substantially (almost to a 1/3rd) beyond Hampi towards Badami, Aihole, and Pattadakal. In addition, Bijapur city, which has numerous significant monuments built during the Adil Shah dynasty, does not experience very high tourist footfall.
- Villages in Bagalkot district and those around Bijapur have resident weaver communities and tribal settlements. However, there is a need to strengthen their economic ecosystem. This will not only assist in improvement of their living conditions but also help achieve enhanced local economic development.

Further, if we look at the larger context (State level), various planning initiatives related to heritage management undertaken by the department of tourism; state archaeology department; and other directly and indirectly linked departments, are largely independent and project—centric (either at site or area level) in their approach. In addition, the contribution of the tourism sector to the State GDP is substantially lower than the national average. Hence, the Karnataka Tourism Policy (2015-20) has proposed robust plans to increase the same.

WORK CARRIED OUT BY THE FIELD CONSULTANT (Jnanodaya team)

The key aspects and corresponding areas studied on the ground by Jnanodaya are listed below;

- Textile clusters centred around Ilkal village and few other villages (Guleduguda, Amingad, Kamatagi, Hunagund) in Bagalkot district
- Religious and Pilgrimage nodes and networks (Basavana Bagewadi and Banashankari)
- Agriculture and Agricultural produces (Hunagund village, Villages near Almatti Dam (which will be identified)); based on community engagement models and tools.

Heritage and Livelihoods:

The study also broadly covered:

- The forward and backward linkages, dependencies and gaps which are of concern to specific groups or communities at large (using tools such as PRAs and FGDs).
- Understand the existing livelihood and lifestyle practices, local economic conditions, potentials and capacities revered by the local communities, influence of tourist and other external agents of development.
- Collect valid information/ data of (daily, weekly, monthly, yearly) lifestyle/ livelihood activities, practices of the village, festivals, traditions, cultural resources, skills etc.

Methodologies adopted:

- Focus Group Discussions (FGDs or PRAs or any other tools) with group of stakeholders depending on the location/ area.
- Documented perspectives and conducting FGD of Tourists/ pilgrims/ other non-local population/ floating populations.
- Documented perspectives, experiences and concerns of local communities residing in the focus nodes through Participatory Rural Appraisal
- Documented field observations.

4.5. IWMP watershed Evaluation:

Assistant Director of Agriculture of Bagepalli, Siddlaghatta, Chintamani, Chickballapur and Gowribidnur engaged Jnanodaya to carry out evaluation work for the PRADHAN MANTRI KRISHI SINCHAYI YOJANA- WATERSHED DEVELOPMENT COMPONENT(PMKSY-WDC). The details of Subwatershed evaluated are:

SI No	District	Taluk	Batch	Name of the Sub watershed
01	Chickballapur	Chintamani	01	Kushavathi SWS
02	Chickballapur	Chintamani	02	Ragimakalahalli SWS
03	Chickballapur	Bagepalli	01	Cheegateegalagutta SWS
04	Chickballapur	Bagepalli	02	Bellampalli SWS
05	Chickballapur	Bagepalli	02	Jinajirlu SWS
06	Chickballapur	Gowribidanur	01	Basavapura SWS
07	Chickballapur	Gowribidanur	02	Nandiganahalli SWS
08	Chickballapur	Chickballapur	01	Musturu SWS
09	Chickballapur	Siddlaghatta	01	Doddabandaraghatta SWS

The evaluation work was successfully completed with the support of JDA, ADA and AAOs of the Agriculture department, Chickballapur district, our reports were accepted and we received our entire payments as per our ToRs.

4.6. Water Security and Livelihoods initiatives:

Building the capabilities of the Gram Panchayath in Kondli GP, Tumkur district, for good Governance, and manage water security and livelihoods initiatives effectively, TIDE, Bangalore has engaged Jnanodaya to employ the step by step GPOD framework and progress of the project for the reporting period is as under:

I. Vision and Mission Exercise:

Jnanodaya team conducted 16 Focussed Group Discussions (FGD) across GP with women, youths, farmers and children on their expectations; services availed and dream about their GP. In the FGDs it is strongly stated

that GP has provided services like Issuance of house pattas, Ration cards and supported in construction of toilets etc., however, there is need for the significant improvement in the service delivery on different fronts.

We also have facilitated surfacing of 12 dream pictures of GP/village with the assistance of the GP members and the citizens.

Vision and Mission building exercise began with a recap of the discussions held on Baselines, Institution mapping and the GP grading. The workshop was facilitated by Rajendra Prasad, Ganesh, Jnanodaya and Ms. Pramila, TIDE. 29 participants have attended the workshop, out of which 7 women and 22 men, including 9 GP members, 4 staff and 9 citizens have participated in the workshop. Jnanodaya team explained that, Vision and mission development is the foundation step in an organisation development exercise. It orients the participants and the organisation, and helps rally different components of the organisation around it, serving as a guide for decision making.

Vision outlines what the organisation wants to be, or defines the optimal desired future state - the mental picture - of what an organisation wants to achieve over time. It is an aspiration, a light post, which is not limited by practical compulsions of defining timelines etc. When a group of people share this and make a public commitment, the momentum that gets built provides energy to move together toward a shared vision.

To formulate vision we used findings from **Focussed Group Discussions, dream pictures and the GP grading**, the key aspects from each was captured for drafting 3 draft Vision statements, out of 3 drafted vision statements participants have selected and expressed their willingness to confine for the below Vision Statement:

Vision: Good governance embedded by Transparency, Justice and Equality

Mission defines the fundamental purpose of an organisation or an enterprise, succinctly describing **WHAT** it does; **WHO** it does it for; and **HOW** it does what it does to achieve this Vision. Developing a vision and mission is different from the classical approach of finding what is the problem and finding a solution to it. Instead of evolving the solution from the problem, we are solving problems based on our dreams and the direction one sets for oneself. In the context of GP organisation building, this step assumes special importance, as the GPs normally see themselves as implementation arms of the government line departments, with focus on implementation of programs and schemes. This step of articulating their shared vision emphasises their identity as units of local self-governance.

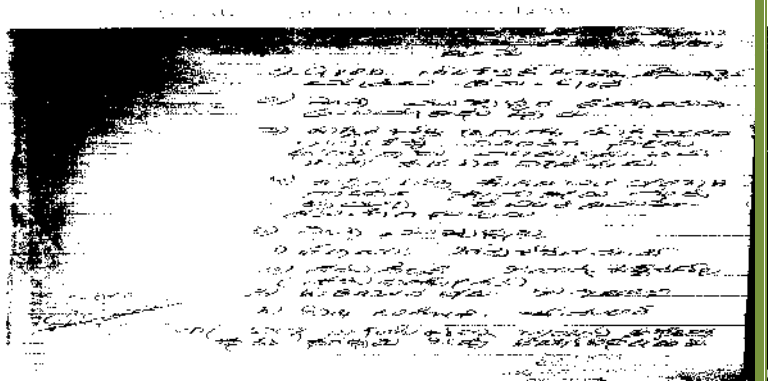

As explained above, to formulate mission we used findings from **Baselines, Institution mapping, Focussed Group Discussions and dream pictures'**, the key aspects of each of them was analysed to determine the mission of the GP, which is as follows:

Mission: To offer safe drinking water, generate employment, Increase agriculture and Animal Husbandry roduction.

Resolution:

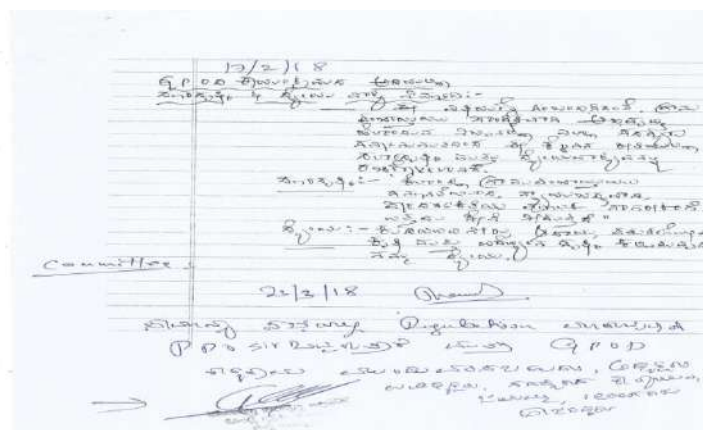

The GP has been agreed to pass resolution to adopt the vision and mission, a written statement of the same:

II: Process Mapping:

Jnanodaya team has prepared draft process mapping on drinking water, agriculture and Animal Husbandry and generate employment/livelihoods which was discussed with the portfolio heads. The process maps are as follows:

1. Drinking water
2. Agriculture
3. Animal Husbandry
4. Employment Generation and Livelihoods
5. Resource mobilization

III: Re structuring:

As per the discussion, 4 new portfolios were created and portfolio Heads have been identified in the Kondli GP. The details are;

1. Drinking water - Kathyayini - Shivasandra ward -9663034797
2. Revenue - Chennakeshava Murthy - Kondli - 9480903857
3. Agriculture and women & livelihood – Hemalatha, President – 8139939825
4. Animal husbandry - Jayamma, Guddahatti - 9008954395

GP resolution 27.06.2018

IV: Perspective and Annual Planning:

The selected portfolio heads were involved in Developing plans, planning orientation and skills with prioritization and knowledge of resources. All above 4 portfolio heads supported to develop perspective and annual planning as below:

1. Drinking water
2. Agriculture
3. Animal Husbandry
4. Employment Generation and Livelihoods
5. Resource mobilization

V: Handholding Implementation of Plans- Handholding transition to formal ways of organizational functioning (both GP and youth collectives)

During the General meeting of GP in July 2018, both TIDE and Jnanodaya team explained the importance of implementation of Annual plans by the portfolio heads. The GP agreed to support the portfolio heads in implementation of the Annual plans. The resolution on this discussion was also agreed to pass in the meeting.

Jnanodaya team visited 8 times to provide handholding support to the portfolio heads in June, July and August. WE meet following portfolio heads on a regular basis

1. Drinking water - Kathyayini
2. Revenue - Chennakeshava Murthy -
3. Agriculture and women & livelihood – Hemalatha
4. Animal husbandry - Jayamma

All 4 portfolio heads have interest to implement Annual plans but they need more support from Adhyaksha and PDO of the GP

The Kondli GP passed resolution on the RO plant to be installed in Guddahatti by TIDE.

VI: Strengthening Citizen Engagement – Developing knowledge and Mechanisms to enable monitoring and support by youth collectives

Jnanodaya and TIDE teams together facilitated the following to strengthen citizen engagement throughout the project.

1. Elicited participation youths and citizen in the GPOD process like Vision and mission exercises, discussions on process mapping, PP and AP
2. Formation of Village Water Sanitation Committee in Guddahatti
3. Interaction with citizens about service delivery- which requires more modifications

VII. Project deliverable summary:

The project had contemplated and certainly delivered outputs and more details are as follows:

SI No	Specific deliverable	Contemplated Project deliverables	Delivered
1	Documents related	Baselines (Before and After) on Drinking water and Livelihoods	Baseline (Before and After) on <ol style="list-style-type: none"> i. Agriculture ii. NREGS iii. Animal Husbandry iv. Revenue collection v. Drinking water
		3 years Perspective plans and Annual plans of Drinking water and livelihoods	3 years Perspective plans and Annual plans on following portfolios developed: <ol style="list-style-type: none"> 1. Drinking water 2. Agriculture and Animal Husbandry 3. Employment generation/livelihoods 4. Revenue Generation
2	Outcomes and tangible deliverables related	Established working relationship between elected representatives and communities	Established working relationship between elected representatives and communities in the GPOD process like Vision and mission exercises, discussions on process mapping, development of Perspective Plans and Annual Plans.
		Implementation of 50% planned activities (Annual Plan) in the year 01, by Portfolios heads of water and livelihoods	30% of planned activities were done
		Building leadership among elected representatives and youths of the GP villages	The project had some headway in this deliverable. 4 elected representatives were given the role of portfolio heads and discussions on the implementation of the plans is just began

4.7. Institutional apparatus for improved civic engagement in local governance'

Foundation for Ecological Security, Gujrat has taken up a project titled 'Institutional apparatus for improved civic engagement in local governance' with support of the Azim Premzi Philanthropic Initiative (APPI). Based on the local democracy framework of the APPI, the overarching aim of the project is to 'Strengthen decentralized governance at Village, Gram Panchayath and Block level' in four blocks.

The proposed project would work for strengthening Panchayathi Raj Institutions by strengthening systems and procedures of Panchayath Raj Institutions through building capacities of members of Panchayaths and Panchayath standing committees and sub-committees and Citizens with a special focus on Women's participation in the Grama Sabhas.

One of the four project blocks is Siddlaghatta in Chikballapur district in Karnataka where Jnanodaya is willing to support for TWO years to FES in interventions related to improving functioning of PRIs and Gram Panchayath Organization Development (GPOD). In other three blocks, namely Pratapgarh block, Pratapgarh district and Mandgalgarh block, Bhilwara district, Rajasthan and Banspal block in Keonjhar district, Odisha, Jnanodaya will provide training to staff of FES and local resource support agencies and Community Resource Persons (CRP) to conduct GPOD.

4.8. Training SHG members/ women

During reporting period Trained **2450 SHG members/women** of **168 SHGs** on Grama Sabha and Livelihoods in Siddlaghatta Taluk, Chickballapur district
