HIGHLIGHTS AND ACHIEVEMENTS

Awareness Presentation

Activity 1.

Documentaries on Social Issues:

In today's world Media is like oxygen to the Society. It plays the role of mirror in everyone's life. Media like newspapers, radio and television plays the role of acting as a bridge between the Government and the people. We are also generating awareness among people regarding the various Social issues through our documentaries.

Major Initiatives:

We worked with Chandigarh Administration to prepare a social documentary on 'Accidental Protection Awareness' to the public. In this documentary film, it was shown that if any person meets with an accident, anybody can pick the injured person and reach the hospital on Humanitarian grounds to help the victim and the Medical Officers are obliged to treat the injured right away, without waiting for the Police to have come to complete their formalities. Motive is to save the injured without causing any kind of delay.

We have also made documentaries on Women Empowerment in which we have highlighted the struggle of various women fighting social ills like disability related stigma, domestic violence, caste suppression, etc. We have also recently made an inspiring Documentary on a young Cancer survivor and her victory over the dreaded disease.

Activity 2.

Subject: Race for special children

Date: 06.11.2016 Total number of beneficiary : 400 Disability covered : Autism & Mental retardation

Activity 3.
