Programmes

1) Health

- a. Primary Health Care
- b. Generic & subsidised medicines
- c. Subsidised laboratory, X-Ray, USG investigation facilities
- d. Mother & Child care (including child birth)
- e. Emergency services
- f. Eye care & Free cataract operation
- g. Chronic Disease Centre for chronic medical condition requiring prolonged medical care, subsidised investigations, medicines and admission facilities for diseases like Bronchial Asthma, Diabetes, high BP, Epilepsy, Heart diseases and tuberculosis
- h. 24 x 7 Concessional / Free Ambulance services
- i. Surgical, Eye, Gynec & Obstetric Operation facilities

2) Community Based Development Action Programme (CBDA Programme)

- a. Women's educations & awareness programme
- b. Adolescent Girls Programme
- c. Saving Groups
- d. Community based outreach free eye camps and surgical operation camps

3) Environment Enrichment Programme

- a. Tree Plantation
- b. Rain water conservation

It is my pleasure presenting financial & activity report of Anjali for the year 2016-2017.

The year was full of ongoing infrastructure additions, modifications and patient related activities.

Patients & their relatives faced inconvenience because of ongoing construction, but it was essential to bear, as the changes being made will make the work more orderly and comfortable. The hospital work continued routinely.

Eye camps were discontinued since many years in the surrounding villages. The camps we restarted this year. From the number of people who attended the camps, it was seen that people sit at home waiting for the camps. The camps both in distant adivasi areas and in surrounding villages were successful. For next year camps in these villages are being planned. Maternal care and new born care activities along with other medical work are smoothly functioning. The needs are many but lack of skilled manpower is a constraint.

Now a days it is essential to be aware and conscious about Non communicable diseases .Anjali Hospital has a chronic disease centre (CDC) for such conditions. But we still have not been able to control T.B and Malaria, and viral infections like dengue, chicken gunea and swine flu are on rise. At one time it was felt that infectious diseases are on decline but it seems difficult to control increasing infectious diseases. With changing times, type of diseases and the treatments are changing. Health work is never ending !!

Along with increase in health facilities, the cost of treatment has become very costly hence it seems that the demand for health centres like Anjali Hospital is constantly increasing.

Medical instruments & equipment need replacement and upgradation according to the needs of the day, which we keep on doing. Considerable financial support is required for this.

Women's program activities are going on uninterrupted and in eight villages adolescent girls activity is underway. The changing psychological trends in adolescent girls and boys are cause of concern, real efforts are being made towards enriching environment.

All this has been possible through support, assistance and cooperation of all the friends, well wishers, workers and donors.

You are welcome to visit us here at Ranasan, see the activities and go around the greenery being created.

Anita Shah
Managing Trustee

Anjali was established in the year 1988. The activities of the organisation were initiated on 29th January 1989.

The founders after completing higher education, formed Anjali in order to use their skills & capabilities for the poor and the needy.

Anjali is a voluntary organisation based in village Ranasan. Ranasan with population of 5000 is a village in Talod taluka of Sabarkantha district in north Gujarat in India.

Beginning was made with health activities, the poor and the needy being the target population. The health activities developed progressively and other activities were included as the needs were perceived. At present the activities of Anjali are, a 75 bed Anjali Hospital, women's programme in 48 interior villages (on the platform of saving groups) and environment enrichment programme. Organisation is inclined towards development programmes for children, youth, and villages. The soil in Ranasan & in its vicinity is rocky & sandy and the climate is dry, windy, hot during 7-8 months of the year and cold during the winter months. The rainfall is less and unpredictable. There are two rivers which run if there is ample of rainfall. There are few lakes & other sources of water. The principal vocation of the people is agriculture. There are no industries in the vicinity. The level of education is low. Most of the population is economically & socially weak. The majority of the population of this area comes from the communities of Thakors, Dalits, Ravals, Vagharies, Banjaras, Vadi, Pagi, Rabarisamaj and migrant adivasi labourers. Most of them earn their livelihood as agriculture or miscellaneous labour. They have not made much progress either economically or socially. This group of people along with other economically weak & distressed section of the population are the main beneficiaries of Anjali's activities.

Vision and Mission Statement

Vision

Promotion of health & all round development of rural population without any distinction of caste, creed or colour.

Mission

1. Activities promoting community health & primary health care.
2. Rational, ethical & subsidised rural hospital services.
3. Empowering education to women, children, youth and over all development of rural population & rural areas.
4. Environment enrichment by tree plantation, rain water harvesting & use of renewable energy.
5. Activities conducive to & fostering moral and ethical values.

(1) Anjali Hospital

The activity in numbers is as follows:

Description of particular activity	2016-17
OPD patients	75935
New patients in OPD	27888
Old patients in OPD	48047
Average Daily OPD patients	251
Beneficiaries of economically weaker sections in OPD	85.09%
Indoor patients (admissions)	4459
Beneficiaries of economically weaker sections in indoor	91.41%
T.B. detections / Referred to DOT at PHC's	471/471
Deliveries (child birth)	605
Vaccinations	1864
Laboratory tests	72123
X-Rays	3952
Operations Total	2235
EYE operation (Cataract)	1480
Other operation	755
Ante Natal Care visits	4747
Ambulance visits	754
Food to patients (dishes)	14101
Breakfast & Milk (Morning & Evening)	9794

Eye & Surgical Camps	OPD	Operation
Eye Camp Arvalli District Dhansura, Modasa, Meghraj Taluka	616	134
Eye Camp Sabarkantha District Himatnagar, Poshina, Talod and Vijaynagar Taluka	1919	356
Surgical Camp (Poshina / Kasana)	236	71
Surgical Camp (Ranasan)	208	107
Total camp activities	2979	668

Renovation and addition of infrastructure going on in the campus since last one & half year is nearing completion. The new facilities and renovated infrastructure was inaugurated on 2nd April, 2017 by Pujya Gnanmaya Prana Mataji of Sharda Math. As the queues around medicine dispensing windows & cashier windows have shifted to the new place, the congestion in the entrance because of queues, patient's relations and patients has eased. In addition changes were made in area around canteen, facility to wash in the morning, place to wash clothes, new watchman cabin and parking areas. Cold drinking water facility with water purifier was created outside the hospital which is utilized by general public.

Eye related work started with an eye camp in 1995. Since then the eye work is going on very well. As full time eye department started functioning, the eye camps were discontinued. Since last 4-5 years, eye camps were started in interior tribal areas of Sabarkantha & Arvali district. Patients were brought to Anjali Hosital, operated, transported back home and weekly & 45 days follow up was done at the place of camp, spectacles were provided to those who requird and the camp was concluded.

This year along with tribal areas, camps were conducted in surrounding small centres like Dhansura, Gambhoi, Nikoda & Dhamania, the camps were well attended and many cataract surgeries were done. It was seen that still many needy & old people wait for camps and donot go for eye check up. Now it has been planned to conduct regular eye camps in surrounding centres.

A group of well wishers of Ahmedabad are providing financial support to Anjali for its hospital activities. This group of well wishers was desirous of providing financial support for purchasing instrument for eye department. 2-4 years back purchase of Phaco machine was being considered but after taking opinion of some ophthalmologists it was felt that there was not much benefit from the type of surgeries being done at Anjali (SICS) and Phaco surgeries and surgeries will be costly and will take more time. But now after 5 years eye surgeon feels that some patients will benefit if phaco surgery is used. So the well wisher group of Ahmedabad donated Phaco machine worth Rs 14 lacs. We are heartily thankful to them for their support.

After conducting eye camps the patients were brought for surgeries in a tempo vehicle (an open transport vehicle) and after surgeries they were taken home in the same vehicle. Well wisher and donor of Anjali **Smt Vimlaben Jayantilal Shah (daughter of late Shri Somchand Punamchand Shah of Ranasan)** family provided financial assistance of Rs 28.38 lacs for eye work. On behalf of Anjali and its beneficiaries we are thankful to them. Out of this amount a bus will be purchased to comfortably bring cataract patients for eye operations. Both Phaco machine and Bus will be delivered in 2017-2018.

Non Communicable Diseases in which long term or life long treatment is necessary, a chronic disease center is functioning since last 8-10 years in Anjali Hosital. Diseases like Diabetes, Bronchial asthma, chronic respiratory diseases, high B.P, Thyroid disorders, epilepsy are some of the chronic diseases, for these conditions, laboratory investigations, indoor treatment, and medicines are provided to the patients at subsidized rates which has made asignificant change in regularity of these patients. TB Centre is going on since beginning of Anjali. Multiple drug resistance cases are increasing now, in which no medicines work,

and those medicines that are used are very dangerous and costly. Government is actively working in this matter. Internationally also there is lot of emphasis in this matter. In association with Government of Gujarat, work is going on as a diagnostic centre for TB. In the same way also working with **Government of Gujarat and Jewalex India Pvt. Ltd. Mumbai** in maternal and new born care.

Along with eye camps, with the help of 3-4 humanitarian surgeons and anesthetists general surgical operation camps are also conducted.

(2) Women's Activities:

Women activities on the platform of saving groups are smoothly continuing since last 13 years. Every month a worker from Anjali visits monthly meetings of groups and since last eight years women members of each saving group come to Anjali once in a year. In a year eleven meetings in their village and one meeting in Anjali.

Members of all the saving groups comes in turn to Anjali. A subject is chosen so that they get useful information and through mediums like role play, short videos, PPT presentation, question & answers, sharing experiences and group discussions this information is given. At the age between 40 to 50 years menstruation stops in women. During this phase due to hormonal changes women experience physical, psychological & emotional disturbances. Saving groups have members between the age of 25 to 64 years, so daughter in law as well as mother in law are members. The meetings were inclusive so that daughter in law understands uneasiness, difficulties and problems of mother in law. At the age after 40 years many persons have problems with near vision which is natural. Through discussions & questions their understanding about this was known, their misunderstanding was cleared. If there is difficulty in near vision, the remedy is glasses was known to all members. But when asked why you are not using, you have not taken one for yourself, the replies were, feel shy, carelessness, it is alright, people will tease in village etc. Eye checkup of the members was done in the eye department of Anjali Hospital. Those having simple near vision errors were provided spectacles at concessional rates and were told to take care of themselves. Women are using spectacles. Those having complex numbers and cataract were given appropriate understanding and advise. They were also given seeds of different vegetables.

Women members of the groups celebrated 8th March by a short procession in the village. Teachers and students of the village schools also participated. Anganwadi and Asha workers also participated with enthusiasm. Through groups of adolescent girls, various activities are done in eight villages. Once a month in their villages various activities of their liking are performed along with health awareness information.

A camp of these adolescent girls was organized in Anjali and they made rangoli-played games and enjoyed.

This year one adolescent girl from village committed suicide. This adolescent girl was associated with us. It was love affair. During the meeting in Anjali through group discussion, stories, the importance of our life, problems of body, psychological problems, safe speech and behavior, mental behavior and its effects were discussed minutely. Emphasis was laid that instead of getting embarrassed due to a problems, talk with trustworthy relative, friend but never take such extreme steps.

The activities in figures:

No	Details	August -2003 to March 2016	April -2016 to March-2017	Total
1	Number of villages	48	-	48
2	Total saving groups	132		133
	New groups formed		3	
	No of saving groups closed		2	
3	No of women members	1668		1684
	New women joined as member (+)	1758	(-93) (+19)	
	Women members resigned (-)			
4	No of members took loan	4706	330	5036
5	No of members repaid loan	3333	271	3604
6	No of member's repayment in process	1373	-	1432

No	Purpose of / Utilisation of loan	August-2003 to March-2016	April-2016 to March-2017	No. of members took loan	%
1	Economic	1956	132	2088	42%
2	Asset building	699	67	766	15%
3	Beneficial	1064	39	1103	22%
4	Social	987	92	1079	21%
	Total	4706	330	5036	100%

Environment Activity:

1500 new trees were planted this year around Rayna Talao. 250 trees which were not thriving or had dried up were changed. Care and attention is continuing. Total 4500 trees are planted till now.

Staff Activity:

Religious and national festivals were celebrated along with the staff members.

Attended various workshops, meetings and seminars and increased understanding and capabilities. Since many years a saving group of employees of Anjali is going on. Many staff members are members. Through this there are regular monthly savings and take loans in time of need.

Every years an eye camp and a surgical operation camp is performed 125 Kms away in Poshina area. As, for operations, patients are brought to Anjali Hospital, some people of that area come for treatment during the year own their own.

Kumariben , a 14 years old girl from Ajavas village of Poshina area was brought for treatment. Two relatives brought her to Anjali Hospital holding her two hands. Present medical officer examined her . She was suffering from juvenile diabetes. Her blood and urine were examined (blood sugar, acetone). The blood sugar was very high and she was having keto-acidosis. Besides as she had mature cataract in both the eyes she had lost her vision. The seriousness of her condition was explained to the relatives and she was admitted in the hospital.

Next day eye specialist doctor examined her and advised that after controlling her diabetes cataract operation can be performed.

Now diet plan as well as blood sugar & acetone monitoring plan of Kumariben was worked out. With carefulness Anjali Hospital staff monitored diet (ate what, ate when) and blood sugar & urine every two hours. Based on this nursing monitoring, medical officer could fix dose of insulin and treatment continued.

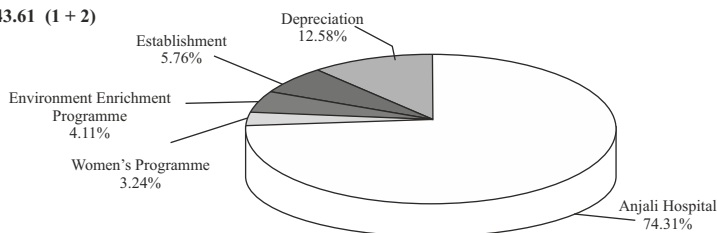

When Kumariben's blood sugar was under control, cataract operation was performed in one eyes. When bandage was removed she was happy as well as surprised. Seeing her, all of us were delighted (sheer joy)

When Kumariben was discharged from the hospital she met staff members and conveyed her thanks and she took date for other eye operation after one and a half month and went home.

ACCOUNTING POLICIES:

The Accounts are maintained as per generally accepted accounting principle and are in line with the relevant guideline statements, standards issued by the Institute of Chartered Accountants of India.

METHOD OF ACCOUNTING:

Books of accounts are maintained on historical cost convention on accrual basis.

FIXED ASSETS:

Fixed assets are stated At Cost less depreddation.

DEPRECIATION:

Depredation is provided on assets on WDV method as under:

Immovable Assets	10%
Movable Assets	10%

(Equipments, Furniture-Fixtures, Vehicles etc)

In the Current year the assets are shown their respective Cost value and Correspondingly the depreciation fund is created to make the value of asseets at its cost.

INVESTMENTS:

Investments are stated At Cost

INVENTORY OF STOCK OF MEDICINE:

The Closing stock for medicines as on 31/03/2017 are taken physically & certified by trust, are valued "At Cost". Medicine and other Supplies are used exclusively only for regular Hospital indoor & outdoor Patients.

The inventories are regularly & periodically taken by management.

RECOGNITION OF INCOME & EXPENDITURE:

Items of Income & expenditure are generally recorded on accrual basis.

During the year donation received are as under

- a. Rs. 783970.00 Towards General Donation.
and Rs 131720.00 towards Foreign Donation.
- b. Rs 9404931.00 towards 35AC General Donation

OTHER NOTES:

1. Donation Towards Corpus Trust Fund . RS.3978098=00
Trust fund amount includes Foreign Donation of Rs.135000=00
2. Donation Towards Hospital Sustenance/Corpus Fund. RS.955745/-
3. The Trust has paid gross remunerations of Rs.356940=00 P.A. to Managing Trustee Smt. Anitaben Shah as a full time administrator cum Director of community based Development Action (CBDA) Programme
4. The Trust has provided Free Residential accommodation in a campus to Smt Anitaben Shah as a full time administrator cum Director of Community Based Development Action (CBDA) Programme.
5. Rs.180000=00 P. A. is paid to Trustee Dr. Lalitbhai Shah as a Medical Director of Anjali Hospital.

According to our professional judgement the said remuneration (as per note 3 & 5) & the said perquisites (as per note 4) are most reasonable looking to their qualification and long experience as compared to any other person having such qualification and experience in other similar organisations. Members of the Board of Trustees other than Smt. Anita Shah and Dr. Lalitbhai Shah strongly opined that the services rendered by them to the Trust are very crucial and indispensable to the Trust.
