PS TO HRH. DR. LARS HEIKENSTEN, EXECUTIVE DIRECTOR OF THE NOBEL FOUNDATION

The identity of all the directions of world affairs is changing rapidly. Mankind Future Age is UNWRO_United Nations World Rehabilitation Organization advocated by World Satellite Navigation System in the 5G-5GHz-5130Code frequency complex modulation bandwidth this being Since 2020 realized ideological and religious, cultural and scientific industrial, etc. this will be fast-paced changes.

The United Nations World Rehabilitation Organization and the United States, India, and the United Nations are wisely involved in the Earth Disaster Countermeasures for Earth environmental rapid changes in the Human Future Era.

SPACE X_World Satellite Communication Navigation System
5G-5GHz-5130Code (SUNBOOK.INFO)Frequency Complex Modulation Band
World Satellite Communication Base High-Speed Satellite Broadband Space
Network Internet Navigation Base Station. United Nations and United States,
Musk's Space X 7500 Satellite Series,(4,425 Satellites at 1200 Km Frequency Band:
Ka, Ku & (7,518 Satellites at 340 Km Frequency Band: V) of HRH. Mr. President

Donald J. Trump, pioneering the Space Industry Age, supports the US Pax Americanism in the Great World Leadership.

UNWRO_United Nations World Rehabilitation Organization is human future period the order of the United States, Space Industrial Era and direct that the association World Satellite Communications Mobile-phone industry 5G-5GHz-5130Code source technologies for 5G frequency to be built on this, Federal Communications Commission from the World Satellite Communications, is the next WRC-03 heralded the future generations in the world of standards and technology, World Satellite Communications 5130Code, 5G/5GHz/±130dBm 5GHz of to use the band (5.150~5.350MHz, 5.470~5.725MHz) as for Wireless Access Systems, including the Wireless LAN will be presented a resolution firmly. In other words, 「Future Generations a World Standard Technology, notice World Satellite Communications 5130Code, 5G/5GHz/±130dBm complex modulation frequency for World Satellite Communications System 5GHz/±130dBm Frequency Band only in practical use it is possible.」

As a result, US-China Trade War, the fuse is China's Huawei, Samsung, LG, SK, such as the traditional mobile-phone of CDMA communication system, the old version of the industrial order is fundamentally a 5G World Satellite Communications System is broken in an instant by a human future value is 5G/5GHz/±130dBm of 5GHz complex modulation frequency band of will to World Satellite Communication System established.

Era of the space industry is there to oppress the weight of the Human Rights called for the human dignity with the value of the global environment to the roots humanity restored simply as a political physical reasons, going ahead to the value of the Nobel Prize of mankind in leaving to pursue a future era it has reached the limit.

The significance of the Nobel Prize must also be a new wave of change. I recommend the Nobel Prize for 2019-2020 for the great thinkers of the present age who are pioneering the human future age. [End]
