It is an identity, not only clothes, art, art forms but also thought and behaviour and in the way we relate to the known and the unknown. It defines the Macro Person called the community and its relationship with the Micro Person called the individual. It brings unity and not uniformity, for the culture celebrates variety. Lack of understanding of this strength leads to conflicts; clear understanding leads to meaningful, sustainable and harmonious development. Development takes place when culture, cultural forms are validated to meet the needs of the time."

NAME OF ACTIVITY : AWARENESS CAMP ON WOMEN AND CHILD TRAFFICKING.

Awareness is only the first step. Prevention is crucial if we are ever going to end trafficking. We believe that many forms of human trafficking can be prevented when people are aware of the crime and understand how traffickers lure people into modern-day slavery. We have developed to educate those who are particularly targeted in our country — youth between the ages of 10 and 15 — and to train those who want to use art to educate others about human trafficking. While we recognize that females are often victims, we also know the power of women’s voices and action. We are just as dedicated to engaging men and boys in the fight against trafficking and to educating, protecting and empowering them as well. Awareness of the crime of human trafficking is the first step to

eradicating modern slavery. It is the mission is to prevent human trafficking by empowering individuals through education and collaborative action India.

Working with youth to empower them to fight human trafficking and to protect themselves and educate others is critical to prevention. Helping businesses and agencies which may encounter trafficking to intervene safely to get the victims help by
